P1-ACK-15 support

Artificial M7c corpus. No rule in this document describes a real business.

Critical P1 tickets: acknowledge within 15 minutes.

The coordinator records the applicable procedure in the local handbook. Staff check the scope of this edition before opening a case and keep the administrative record with the relevant team.

This fictional procedure explains a limited operational task. The desk reviews supporting material, records the request and forwards any unresolved question through its normal internal workflow.

Employees identify the appropriate category and retain the case reference. A supervisor checks that the team has selected the correct edition and that the information remains consistent.
